THE BUSINESS OUTLOOK BETTER.

Peace in South Africa Greatly Improves It.

BIG HOME CONSUMPTION.

Producers May Not be Able to Take Advantage of Demand-No Advance in Steel Rail Prices,

New York, June 6 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: Peacee in South Africa has greatly improved the outlook. Forsign industrial markets will quickly benefit by the development of that country, while a return to active gold mining will have a helpful influence in monetary circles. Owing to the present exceptional home consumption, producers in this country may not be able to take advantage of the indirect effacts which must be beneficial.

Domestic conditions have still but the one drawback of labor disputes, which have reduced the earning power of a large force. Outside the limits of this influence there is little cause for complaint. Orders are large and distribution is less interrupted by the shortage of cars. Railway earnings for May show an in-

crease of 6.8 per cent over last year and 17.4 per cent over 1900. 17.4 per cent over 1900.

Contrary to expectations, the leading producers maintained their conservative position by making no advance in the price of steel rails for delivery in

the price of steel rails for delivery in 1803, notwithstanding the very material rise that has occurred in pig iron.

Satisfactory weather in the leading producing regions had a depressing influence on grain quotations, and last week's advance was lost. Cash prices were slow to react, owing to the extremely strong statistical position, but the next crop options fully reflected the program at the farms.

Frederick S. Leland Suicides.

New York, June 7.—Excusing him-self for a moment from the dinner ta-ble at which were seated his wife, his wo sons and two guests who had been Invited to spend the evening, Frederick the Bronx and said to be a cousin of the late well known hotel man, War-ren Leland, went to his room and, with so apparent motive, shot himself in the head, dying instantly.

In Memory of Cornelius Vanderbilt. New York, June 7.-In memory of her late husband, Mrs. Cornelius Vanderbilt has arranged to present to St. Bartholomew's Protestant Episcopal church a new front and four bronze doors. It was the original intention of Mrs. Vanderbilt to give only the bronze doors but she decided a better effect could be obtained by remodeling the entire front of the edifice. The

YOUNG MAN KILLED.

Met Death on Rails Near Idaho Line Last Night.

An unknown young man, supposed to be the son of Ex-Agent Goodwin at Dewey, was killed on the Oregon Short Line last night at a point near the state line. It is thought that he was beating his way on No. 9 last night and in some manner lost his hold and was ground to pieces by the train. The remains were picked up by No. 8 this morning at daybreak and placed in a sack which was left at Cornish. The body of the unfortunate young fellow was literally ground to pieces and scattered along the track for a considerable dis-

Another accident occurred on the Short Line last night when a man, who Subsequently gave the name of Claude Schoffeld, lost his right foot. He was riding on the brakebeam of a freight and when the train stopped at Centerville he attempted to get off with the result that he was caught beneath the wheel of a car. His right foot was cut completely off. He was Viter brought into St. Mark's hospital.

SEVERE EXPERIECNE.

Junius Stringfellow Becomes Involved With Electric Wires.

Junius Stringfellow, the 17-year old son of George Stringfellow of 26 East Sixth South street is lying at his home in a serious condition resulting from contact with a live electric wire. His right hand is terribly burned and it may be that grave injuries have been done him internally. The wire was lying on the ground at the intersection of Seventh South and State street and the first knowledge Junius had of it was when the horse he was riding stepped upon it. The animal lunged into the air and continued to rear and plunge around in wild excitement. Eventually Junius was thrown to the ground and in some unaccountable way he grasped the wire in his hand. In his convulsions under the electricity he was thrown into a ditch of water that added several fold to the severity of the current.

He screamed wildly in his fright and pain and a number of men were soon attracted to the spot but the difficulty they encountered in attempting to free the young man's hand from the wire was so great, that it looked as if he would be burned up before any assistance could be rendered him. Presently a stret ear came by and the motorman disconnected the wire and thus

stopped the current.

The poor boy by this time was as limp as a rag and almost unconclous, Some of his friends picked him up and carried him to his home where he was given medical attention. While the young man is severely burned a fatal esult is not looked for by the physi-Juntus is getting on as well as could be expected under the circumstances.
